Dementia

Technical Event- Online

Are you a programming geek and love solving problems related to data structures and algorithms? If yes, then Dementia is for you.

It is a 2.5-3 hours long online competitive programming contest and rated for Division-2 (might also be extended for Division-1) participants. It'll be conducted on Codechef and shall contain 7-8 problems of varying difficulty and covering wide concepts of data structures and algorithms. The scoring will be based on [ACM-ICPC rules](#) having 20 minutes penalty for each rejected solution. It is an individual contest.
